ELEVATE EDUCATION YEAR 10 TO YEAR 12 PARENT SEMINAR

Elevate Education's high impact seminars and workshops help students improve their study techniques, increase motivation, build confidence, and lift exam performance.

This event is designed for parents and carers to learn about the techniques shared with their daughters through the Student Elevate Seminars and provide additional strategies to provide support at home.

The Parent Seminar will include the key points from the sessions the students have attended and there will be an opportunity to ask questions of the Elevate team.
