It Takes a Spark STEM Conference, Melbourne

Organisation: Intuyu Consulting Pty Ltd

Location: The Knox School, Wantirna

Date: October 23, 2025

Most conferences currently being offered on STEM, STEAM and Entrepreneurship tend to be targeted towards teachers and involve a series of speakers and the occasional mini-workshops. This conference is designed to be different. This conference is designed by students and teachers for students and teachers.

The intent of the It Takes a Spark STEM Conference is to bring together Students (Year 4 to 10) and Teachers to connect with inspiring industry role models, share their current school based activities and projects using an authentic sharing and experiential model, create networks of teachers and student teams, and solve social justice design challenges.

The participation of the students is as important as teachers as our intent is to ignite, empower and nurture both to be leaders of STEM and Entrepreneurship within their schools. This is a conference designed and led by students and teachers for students and teachers.

Teachers will have both formal and informal opportunities to speak to other teachers who have enacted programs and activities in their schools and get their questions answered.

The Digi-Design workshops and Problem Solver design challenges are all hands-on so students and teachers will experience first-hand what it is like to be part of great STEM and entrepreneurial learning. This will spark new ideas about curriculum and pedagogy.
